

Birds at the Kickapoo Valley Reserve The Kickapoo River Valley offers valuable breeding habitat for more than 100 species, and over 200 species have been identified throughout the year. Many neo-tropic migratory species use the area as a stopover between the Missouri Ozarks and boreal forests of Canada.

A Abundant

Multiple sightings daily in season/habitat

P Present

Seen a few times a month in season/habitat

C Common

Seen daily in season/habitat

R Rare

Seen a few times a year in season/habitat

Yearly Resident	Breeding	Spring/Fall Migrant	Winter Migrant
-----------------	----------	---------------------	----------------

Waterfowl
